REMARKS/ARGUMENTS

This Amendment is submitted following issuance of the Notice of Allowance which was mailed on January 24, 2008 and is being made prior to payment of the issue fee. The claims presented in this amendment incorporate the amendments to claims previously made by the Examiner in the Examiner's amendment.

I. Introduction

All claims presented herein stand allowed. The present amendment is made to address minor grammatical/typographical errors, address antecedent basis issues and/or to clarify the claims so that the elements are referred to in a consistent manner.

For example claim 44 has been amended to address an antecedent basis issue. Claim 44 line 13 recites "~~said~~ wireless communications device". The preamble of claim 44 which provides the antecedent basis for this feature, as allowed, recites "a communications device". Applicant has amended the preamble of claim 44 so that it now recites "a wireless communications device". This amendment does not alter the scope of the claim since "~~said~~ wireless communications device" is already recited in the claim and Applicant has simply amended the claim so that the language is consistent thereby clarifying the claim.

Applicant requests that the Examiner review and approve the clarifying amendment made herein.

II. Conclusion

In view of the foregoing amendments and remarks, it is respectfully submitted that the pending claims are in

condition for allowance. Accordingly, it is requested that the Examiner pass this application to issue.

If there are any outstanding issues which need to be resolved to place the application in condition for allowance **the Examiner is requested to call (732-936-1400) and schedule an interview with Applicant's undersigned representative.** To the extent necessary, a petition for extension of time under 37 C.F.R. 1.136 is hereby made and any required fee in regard to the extension or this amendment is authorized to be charged to the deposit account of Straub & Pokotylo, deposit account number 50-1049.

None of the statements or discussion made herein are intended to be an admission that any of the applied references are prior art to the present application and Applicants preserve the right to establish that one or more of the applied references are not prior art.

Respectfully submitted,
